Accessories
Smart Plug
Input/Output Delay
SPT1-AN6X

- multifunctional adapter for connection to standard sensors
- Degree of protection IP67
- 4-pin M12 x 1, female connector
- 4-pin M12 x 1, male connector

Wiring Diagram

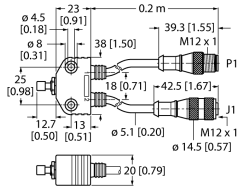

Type	SPT1-AN6X
ID	A0606
Operating voltage U_B	10…30 VDC
Output function	4-wire
Insulation class	⧈
Dimensions	60 mm
Housing material	Plastic, PBTP
Ambient temperature	0…+60 °C
Protection class	IP67

Functional principle

The SmartPlug Timer SPT1-AN6X completes the functionality scope of the connected sensor with ON or OFF delay. Both functions can be adjusted with teach. The SmartPlug can be used for PLC suited streching of very short signals.
